Help Improve NINR's Website

Project Title	Help Improve NINR's Website
Project Summary	Want to gain web content, design, user research, and usability experience? Then we have the job for you!
Country	United States

Project Description

The National Institute of Nursing Research (NINR) within the National Institutes of Health is looking for someone who would like to apply their knowledge and gain experience with helping us update our website which provides information to scientists, researchers, students, healthcare providers, patients and their families, and the general public.

We ask for your expertise in:

• Editing and revising web content with clear and easy to understand language.
• Conducting usability testing to learn how to best design the layout and navigation of our web pages.
• Learning more about our audiences and how to reach them through audience segmentation.
• Providing other recommendations based on website best practices.
